

## Emission of formaldehyde according to EN 717-1 (chamber) and JAS MAFF 240 (desiccator) on flooring (with and without glue) from Timberwise Oy

### Ewa Vestin

**Summary:** The emission of formaldehyde according to EN 717-1 (chamber) and JAS MAFF 240 (desiccator) has been measured on flooring (with and without glue) from Timberwise Oy.

The results are summarized in the table below:

| Flooring from<br>Timberwise Oy | Emission of formaldehyde                   |                                      |
|--------------------------------|--|--------------------------------------|
|                                | EN 717-1<br>(chamber)<br>mg/m <sup>3</sup> | JAS MAFF 240<br>(desiccator)<br>mg/l |
| With glue<br>1977/1993, 100:15 | 0.01                                       | 0.14                                 |
| Without glue                   | No analysis                                | 0.12                                 |

Appendix 1. Report 09 F3 060, (EN 717-1, chamber)

Appendix 2-3. Report 09 F5 005 and 09 F5 006, (JAS MAFF 240 desiccator)
